

NHS Greater Glasgow and Clyde Mental Health Improvement Team

Key websites and helplines to support your mental health and wellbeing

You may be worried about yourself and your family and how you can look after your mental health at this time. It's normal to feel stressed, scared, confused and even angry during these times. If you have any of those feelings only get information and advice from credible and reliable sources. Limit the amount of time you spend checking the news and avoid some of the 'fake news' stories that are going around.

NHS Inform will give you all the advice you need to keep yourself safe.
